

East Lansing High School's Story

After participating in the professional learning opportunity at Mason High School in October 2012, Jodi Wheeler, Sheri Sekya, and Will Paddock were excited to invite their East Lansing High School colleagues to participate in their first Learning Walk on December 3rd. Twenty-three teachers participated in this collaborative opportunity. Teachers were encouraged by the professional, supportive conversations and the opportunity to reflect on effective instruction.

With the support of district leaders, teachers plan to participate in a second Learning Walk in February and plan to offer one Learning Walk opportunity every month.
